2.5.1: Mechanism of internal/ external assessment is transparent, and the grievance redressal system is time- bound and efficient

Overall evaluation of the UG and the PG students comprises internal evaluation which carries 20% marks, external theory examination of 80% marks and for those subjects which have practical classes, practical examinations have 33% weightage of total marks. Theory examination is conducted and evaluated by the affiliating university and practical examination is conducted in the institute under the supervision of the external examiner appointed by the University. Only internal evaluation is done by the respective departments of the college. Also, the college has instituted a support system for helping them get their external examination-related grievances redressed as quickly as possible through liaisoning with the University.

Grievance related to Internal Examination

After valuation, marks are shown to the students by the respective faculty member. In case of any grievance, students are given a fair chance to go through their valued answer sheets, answer sheets are shown to all the students and answers are also discussed in the class. The grievances filed by the students are always addressed to their satisfaction. Once the students are satisfied with the valuation of their CCE modes, they are advised to put their signatures on the valued answer sheets.

If a student misses his/ her internal examination because of any genuine reasons personal or because of he/she is being preoccupied with some extracurricular activities like sports/youth festivals, NCC/NSS camps etc., special internal examinations are conducted for such students, provided the students submits application with proof explaining cause of his/her absence from the CCE. Also, a second chance is given to students who wish to improve upon their CCE scores. A student who is still not satisfied can approach the concerned HOD, who can intervene and get help from some other faculty too. If grievance still persists the student can approach the Principal for grievance redressal. The decision of the Principal is final and binding in such cases.
