Minutes of the Meeting held on 09.12.2019

In the meeting of the Women's Atrocities Prevention Committee held on 09.12.2019 which was attended by many girl students an attempt was made to know the problems faced by them both inside and outside the college premises. Some of the girls complained about passing comments by the boys. The committee suggested that if this happens in the campus, then they should immediately inform any teacher available in the college at that time, or inform the Women cell committee. Efforts will be made to solve their problems on priority. There is no need to tolerate any kind of misbehavior from boys or senior girls. The girls can protest against such behaviour by forming a group. They have to prove themselves and make themselves capable. The members of the committee were directed that they should remain in constant contact with the girl students.
